Cons:

Although many people are vouching for the effectiveness of BrightSpark, a few people have complained that they have not seen any improvement after using this product. With Native Remedies' money back guarantee, you are encouraged to try BrightSpark to find out whether or not it works in your (or your loved one's) particular case. Also, it may take up to 3-6 weeks of regular use before results can be seen, although some people do see immediate improvement.

Side Effects of BrightSpark:

No known side effects, but please consult your personal physician before using this product.

Customer Feedback / Comments:

"Brightspark (Native Remedies) has worked wonders for him with no side effects at all! I was a sceptic, but now I'm out there trying to spread the word." -- Actual Consumer Comments from BabyCrowd[dot]com Forums

"We have been using Bright Spark and Focus Formula together, for my 9 year-old nephew who had been diagnosed with ADHD and displayed impulsive outbursts of anger and trouble at school. He has been using these two products for about 5 weeks now and we have seen a marked improvement in his behavior. He seems to be much more able to handle situations that previously would have escalated into destructive behavior and defiant attitudes toward authority." -- Actual Consumer Comments from Amazon[dot]com

"My son is 7 years old and weighs about 38 pounds. I have tried many alternative vitamin and herbal products for him while trying to keep him off prescription drugs for his adhd...I've had him on bright spark and focus for a couple weeks now and his teacher can't believe the change in him...He is bringing home greens now (good behavior reports) where before it was reds every day!! " -- Actual Consumer Comments from Amazon[dot]com

"Although it didn't drastically change my 4 1/2 year old sons behavior, it definitely took the "edge" off." -- Actual Consumer Comments from Amazon[dot]com

"My 6 year old son takes both BrightSpark and Focus Formula. It does work, but it takes time to work...You need to be patient while waiting for the full effects of this product, but it is worth the wait and so much better than the prescription meds that can have horrible side effects." -- Actual Consumer Comments from Amazon[dot]com

"I am almost finished with both bottles and have not seen an improvement in my 9 year old daughters behavior or attention span." -- Actual Consumer Comments from Amazon[dot]com
